30th August 2018

Dear Parents/ Carers

I am writing to inform you that year 11 students in science had the opportunity to subscribe to a fantastic GCSE online revision program called Tassomai. This program aims to prepare students for their forthcoming GCSE exams and is an excellent resource that will significantly help them in their preparation for their GCSEs in science.

Each syllabus has been broken down into quiz able micro facts, covering everything students need to know for their exams. Tassomai's unique algorithm adapts itself to the user, targeting their weaknesses, and tailors the quizzes accordingly.

Students only need to do a few minutes each day to keep up with their targets and complete the course in time for their exams. Targeted repetition, done little and often, is the most effective and efficient way to implant knowledge and prepare for exams. The aim is that all students will be given weekly target to achieve and, as with all homework, the expectation is all students should complete these targets.

We have managed to secure a heavily discounted price for access to Tassomai of £13.25.

If you have any questions regarding this program please contact Mr Poovilingham.

If you wish to purchase this fantastic resource then please pay the £13.25 through ParentPay or by sending a cheque into school and complete the permission slip below.

Regards

Karen Salmons
